Dear Parents

‘Extramarks – The Learning App’!

IMPORTANT FEATURES

You will find solutions for everything on the app, through visual and interactive learning modules, including homework, projects, essays, tests.

Exciting Highlights –

- Alex – Meet the first ever AI-backed studybot, who will help you reach your learning milestones, and will be with you at all times of day. You can simply click a picture of your doubt or the problem you want Alex to solve, and send it to him for instant resolution.
- Personalized Learning Journey – Alex curates an intelligent learning journey for you after considering your specific learning needs and academic goals. This learning path takes you on a journey through each chapter in a personalized manner, throwing in quick tests to assess the level of comprehension, and adapts to the results to curate the next milestone of the journey.
- Achieve – Achieve is a service which provides real time doubt resolution, problem solving .
- Interactive, engaging and immersive learning modules, using latest 2D and 3D animation techniques.
- You can take a tour of a pre-historic site, or see how a heart pumps blood or how nuclear power is generated through virtual reality based learning modules.

From KG to grade 12, the application covers the entire K12 spectrum. It is favoured among education apps, because it is the one place to find the solutions for all subjects like Science, Maths, Social Science, English, English Core, English Elective, Hindi, Sanskrit, Economics, History, Geography, Political Science, Accountancy, Business Studies, Physics, Chemistry, Biology, Computer Science (C++ and Python), Informatics Practices, Multimedia Web and Technology and much more. Its practice and study material is aligned to NCERT books and covers all topics along with NCERT Solutions.
