Van Students Safety

Dear Parent,

The school has always been earnest and steadfast in its commitment towards student safety. However, its alarming and disturbing to note that students waiting for their van loiter in the school grounds beyond 3.00 p.m. They may cause injury to themselves or to others as they wait for their respective vans. It is also not possible to detain teachers indefinitely to look after students. Though the school has the provision of an all-weather shed for waiting students, they are still vulnerable and may get heat stroke in the scorching heat. Therefore, you are requested to please instruct van drivers to collect students latest by 2.20 p.m.

Also, as per DOE guidelines, parents need to provide a lady volunteer in each van for student safety. You are required to provide the details of parent volunteer to the class teacher at the earliest.

Soliciting your cooperation and support for safety and security of students.

(Suruchi Gandhi)

Principal
