

ONLINE VIRTUAL LIBRARY (GRADE I-V)

For the all-round development of children and to instil in them the love, enthusiasm and zeal for reading, the school has taken the initiative to establish a virtual library for learners of classes I-V, making an inexhaustible reservoir of reading and learning material accessible to them at the click of a button. The online virtual library, with resources and services, is available 24X7 on smart phone through the link: [BBPSDW_Jr.Lib/Linktree](https://www.bbpsdw.edu.in/jr-lib/), which has received over 9000 views as on October 10, 2022.

The platform boasts of a number of interactive features including:

- **Recommend a book to your friends:** Children can read interesting books and spread a word about them by posting their reviews. The feature is gaining popularity as a virtual book readers' club and has garnered much appreciation from the parent community.
- **Books I want you to read:** Talking cognizance of the reading level and interest of learners, teachers recommend books from a wide variety of genres to children. The platform provides a space for teachers and students to engage in this academic endeavour outside the classroom.
- **Teachers' Corner:** Teachers can access National Digital Library (NDL), CBSE Handbooks and NCERT Portal to keep themselves abreast with latest pedagogy and as a ready referral.

The following sections are available with daily updates to augment the general awareness and hone the logical thinking skills of learners:

- This Day in History
- Word of the Day
- Maths Puzzles
- English Puzzles
- Educational short films

We believe that by tapping the invaluable virtual resources at their disposal, our young learners shall develop their scholastic aptitude and broaden their horizons.
