

Ref. No. BBPS/DW/2023

June 2, 2023

In the words of George Bernard Shaw, “Progress is impossible without change, and those who cannot change their minds cannot change anything.”

Dear Parent

Warm greetings!

Environment Day is a global event, a special day to realize the importance of our Mother Earth. It is the time to thank nature for all its bounties. We invite all parents to join us for this special occasion and actively participate with their children in the following eco-smart activities that promote sustainability, conservation, and environmental awareness. By engaging in these activities, we aim to instill a sense of responsibility and foster a deeper understanding of the importance of protecting our planet.

Class I – III

Plant a Tree Together: Get your hands dirty and contribute to reforestation efforts by planting a tree in your backyard or a nearby green space. Teach your child about the benefits of trees, their role in combating climate change, and the importance of sustainable forestry.

Class IV – V

DIY Eco-Crafts: Engage in do-it-yourself eco-friendly crafts using recyclable materials. Encourage your child's creativity by making artworks, bird feeders, or useful household items from recycled materials.

Class VI – VIII

Nature-inspired Art: Encourage your child's artistic skills by engaging in nature-inspired art activities. Use natural materials such as leaves, flowers, and stones to create beautiful artwork. Explore different techniques like leaf rubbing, painting with natural pigments, or creating mandalas with natural elements.

Class IX - X

Make a **one-minute video** on **‘My Vision of my Planet Earth’** using any medium of **expression**: a poster, painting, song (even rap), recitation of a self - composed poem, short dance recital, meme, mono-acting etc. that will showcase your vision.

All are required to share pictures or videos of their activities/ creations with the class teachers by Monday, 5 June, 2023.

We believe that by engaging in these activities as a family, we can inspire a generation of environmentally conscious individuals who will strive for a greener and more sustainable future. Together, we can make a difference.

Regards

Suruchi Gandhi
