'O swan,
lead us to
knowledge'

Bal Bharati Public Schools combine a progressive, new-age outlook with an ethos that is rooted in India's rich cultural heritage and values. We are a 79-year old organisation running 26 institutions across India. Being a chain, our institutions have robust systems and policies, with sharing of best practices between various group schools.

Child Education Society®, the apex body of Bal Bharati Public Schools and other institutions of higher education, was registered in 1944 under the Registration of Societies Act, 1860. Our founders had the vision of preserving and fostering Indian culture, heritage, tradition and ethos, and for this, they considered it essential to impart value-based education to young people.

Today, the affairs of the Society are managed by a Board of Management consisting of reputed educationists and social workers, with Shri Nikhil Channa, an eminent educationist and entrepreneur, as the President of the Society. Each school is governed by a separate Managing Committee, in accordance with the rules prescribed by the state where it is located, but is ultimately responsible to the Board of Management.

Bal Bharati Public Schools are co-educational English medium schools affiliated to the Central Board of Secondary Education (CBSE). Hindi enjoys a place of pride as the national language in our curriculum. At Bal Bharati, we follow a 360° approach to child development, with a balanced emphasis on academic outcomes and co-curricular activities, sports and value orientation. We believe in working closely with parents in preparing children for an ever-evolving society. There is a long-lasting association between our older schools and their students – for instance, there are many families whose third or fourth generations continue to choose Bal Bharati.

Core Values

Our Vision

To strive for better and better, not resting on one's laurels.
To seek solutions not excuses, to serve the community by providing value-based, holistic, quality education that perpetuates the culture, heritage and ethos of the country.
To equip learners to be responsible and empowered global citizens of the ever-changing world of the future.

Our Mission

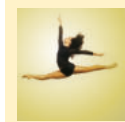

Run by the Child Education Society®, Bal Bharati Public Schools are committed to inspiring students to achieve the highest standards of intellectual, social, emotional and moral development, through a multi-faceted approach to education.

We promote a supportive and happy environment for students to interact with - and learn from - their peers, teachers, parents and the community.

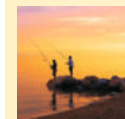

We aim to prepare students to become:

- Disciplined, confident, resilient and caring.
- Equipped with the right values, knowledge and skills.
- Future-ready and life-long learners.
- Enlightened and engaged citizens of a global society.

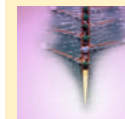

Bal Bharati Public Schools are value-driven institutions where we make our core values come alive, instead of letting them become abstract clichés. We believe that values need to be internalised, and they must percolate into the institution's approach towards its day-to-day functioning.

Perseverance

Knowledge & wisdom

Respect towards elders

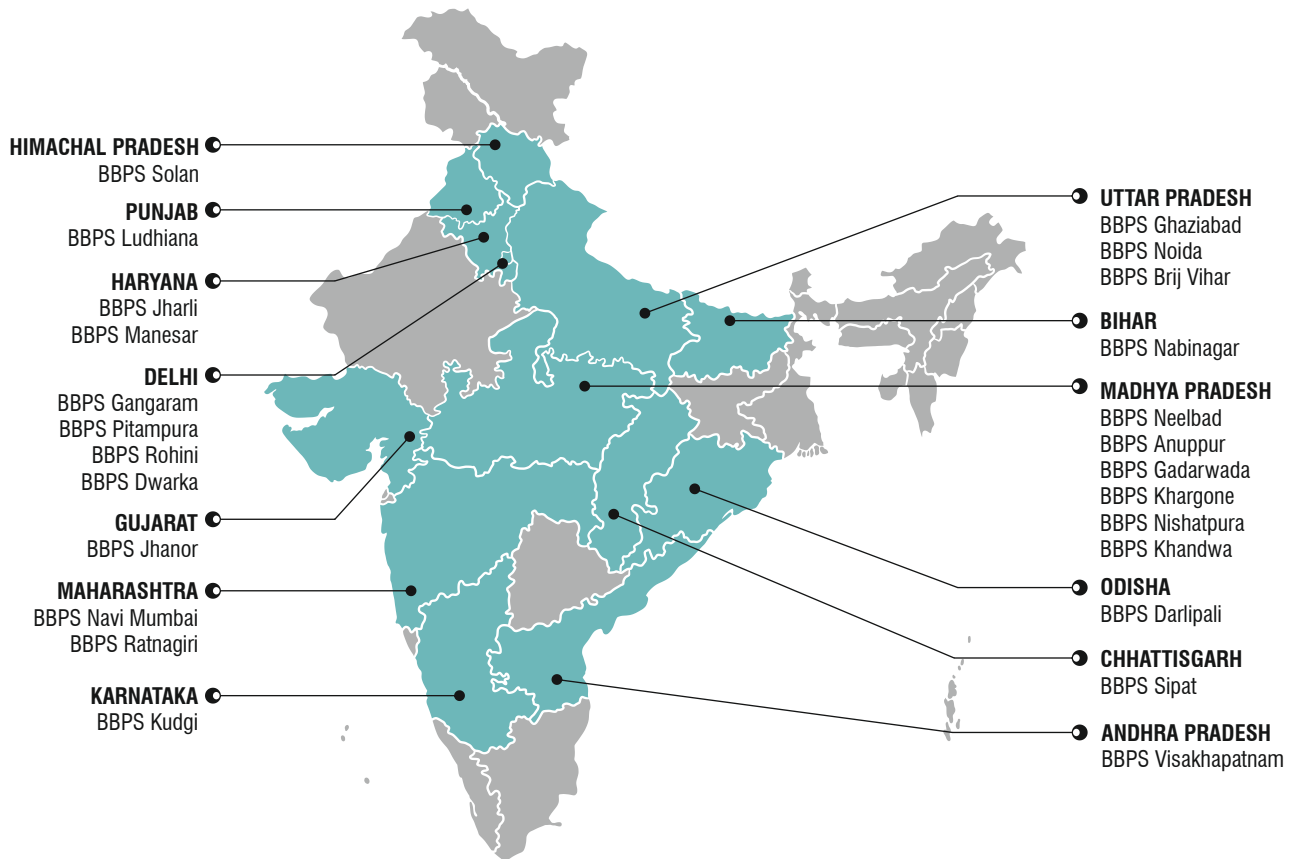

Sensitivity to environment

Empathy

A Pan-India Chain

Wings of Learning

Pre-school and Pre-primary

The school follows the Montessori method of teaching at this stage. The pupils learn in an informal way with the help of specially designed apparatus under the supervision and guidance of trained and experienced teachers. Special attention is paid to facilitate the physical, mental, emotional and social growth of the child through a series of well-coordinated activities. Curriculum-based activities provide conducive learning ground to children and enhance their confidence. Beautiful and artistically painted theme-based classrooms provide a stimulating and friendly learning environment to the students. Smart boards/ Interactive panels make learning joyful for curious little minds. Apart from this, a sensorial garden provides children a holistic experience - visual, olfactory, tactile and auditory.

Primary

In the Primary Department, emphasis is given not only on acquisition of new knowledge but also on concept formation and application of knowledge in practical life situations. Stress is laid on 'learning by doing'. Children are given personal attention. They are exposed to pictorial informative books and audio-visual programmes which excite their interest in learning. Students are not unduly burdened with home assignments and are evaluated through their performance in various curricular and co-curricular activities.

Middle, Secondary and Senior Secondary

To ignite students' interest in learning, latest teaching-learning methodologies are followed. Self-discipline of the body and mind is practised through conscious and deliberate efforts. Performance of pupils is graded as per CBSE recommendations.

Infrastructure

Laboratories

The school aims at developing the spirit of enquiry and a scientific temper in students from an early stage. In addition to customised computer-aided learning, projects, models, charts, PowerPoint presentations and other scientific educational aids, students learn through experiments and demonstrations in modern and well-equipped Physics, Chemistry, Biology, Computer, Geography and Mathematics laboratories.

Technologically-enabled classrooms

The school provides computer-aided learning management systems from Montessori to class XII. Pedagogically sound and visually rich curriculum resources are hereby mapped and customised to the needs of the students. AV aids provide tools and content for interactive self-paced learning for students, and interactive panels provide rich media presentations for teacher-led classroom learning.

Health centre

The health centre is managed by qualified medical professionals. The centre is equipped with facilities to deal with day-to-day health problems of students. Regular medical check-ups are organised to ensure well-being of the students. A tie-up with reputed health agencies and hospitals provides services such as health insurance, 24x7 ambulance, medical care on campus, and telephonic consultation with medical experts to students and staff.

School library

The school has well-stocked libraries with a good collection of books ranging from encyclopaedias to fiction and text books. The libraries are enriched with a collection of digital tools and resources used by the students for reference work. 'Book Week' encourages learning beyond text books. Thoughtfully graded books are made accessible to students in Senior and Junior libraries. Laptops and Kindle readers are available for use in Wi-Fi enabled zone in the school library.

International dimension

The school has ventured into collaborative international projects with UK, Australia, China, Japan, New Zealand, Malta, USA etc. The principal, staff members and students have been on mutual visits to chalk out new education programmes and strategies which are then effectively disseminated. This provides wonderful opportunities to the students to experience and collect first-hand information about social, political, geographical and cultural milieu of other parts of the globe through experiential learning.
