Q23. Read the passage and answer the following questions:

All over Europe and USA, women and the poor have had to fight for participation in government. Women's struggle to vote got strengthened during the First World War. This movement is called the women's suffrage movement. Many women began organising and managing different kinds of work. When people saw this they began to wonder why they had created so many unfair stereotypes about women and what they were capable of doing. So women began to be seen as being equally capable of making decisions. The suffragettes demanded the right to vote for all women and to get their demands heard they chained themselves to railings in public places. Many suffragettes were imprisoned and went on hunger strikes, and they had to be fed by force. American women got the right to vote in 1920 while women in the UK got to vote on the same terms as men some years later, in 1928.

- (a) What was the suffragist movement ? 1
- (b) Why do you think it is important that everyone is given the right to vote? (Two points) 2

Q24. Read the passage given below and answer the following questions:

This was also a time when several grain bearing grasses, including wheat, barley and rice grew naturally in different parts of the subcontinent. Men, women and children probably collected these grains as food, and learnt where they grew, and when they ripened. This may have led them to think about growing plants on their own. In this way people became farmers. People could also attract and then tame animals by leaving food for them near their shelters. The first animal to be tamed was the wild ancestor of the dog. Later, people encouraged animals that were relatively gentle to come near the camps where they lived. These animals such as sheep, goat, cattle and also the pig lived in herds, and most of them ate grass. Often, people protected these animals from attacks by other wild animals. This is how they became herders.

- (a) What led hunters and gatherers to grow crops? 1
- (a) How did they become herders? 1
- (b) Why did early human beings practicing farming instead of relying solely on hunting and gathering? 1

Q25. Read the passage given below and answer the following questions:

This is the way boys are and this is how girls are: these are statements we hear constantly and accept without even thinking, and we start believing that each one of us must behave accordingly. We fit all boys and all girls into an image that society creates around us. When people say that those who belong to a particular country, religion, sex, race or economic background are “stingy,” “lazy,” “criminal” or “dumb,” they are using stereotypes. Stereotypes stop us from looking at each person as a unique individual with his or her own special qualities. Stereotypes affect all of us as they prevent us from doing certain things, that we might otherwise be good at.

- (a) What is Stereotype? 1
- (b) How do you think stereotypes affect us and prevent us from doing certain things. (two points) 2

SAMPLE PAPER (HALF YEARLY)
CLASS - VI
SUBJECT- ENGLISH

TIME: 2.5 hrs

Maximum Marks: 60

General Instructions:

(i) *Question paper comprises of three Sections - A, B, and C. There are 34 questions in the question paper. All questions are compulsory.*

(ii) *Section A - Reading*

(iii) *Section B - Grammar and Writing*

(iv) *Section C - Literature*

(v) *Attempt questions based on specific instructions for each part.*

SECTION-A (READING)

Q1. Read the following passage carefully:

(7)

1. The White Tiger, a rare and majestic creature, has a unique place in Indian wildlife history. The first white tiger was discovered in the wild in Rewa, a princely state in the state of Madhya Pradesh, India. This historic event took place in 1951 when Maharaja Martand Singh spotted a white tiger cub during one of his hunting trips.
2. This cub, named Mohan, was a variant of the Bengal tiger with a rare genetic condition. Unlike the usual orange-and-black striped Bengal tigers, Mohan had white fur with black stripes, blue eyes, and a pink nose. The Maharaja decided to bring Mohan to his palace and protect him from poachers and other dangers in the wild.
3. Mohan became the progenitor or founder of many white tigers in captivity. The Maharaja's breeding program at the Rewa Palace successfully produced several generations of white tigers. This unique lineage of tigers became a source of fascination and pride for the people of Rewa and India. White tigers from Mohan's lineage were later sent to various zoos and wildlife parks across the world.
4. White tigers, despite their beauty, face challenges in the wild due to their distinct coloration. Their white fur makes them more visible to predators and poachers, and they are often at a disadvantage in the dense forests where camouflage is crucial for survival.
5. Today, white tigers are mostly found in captivity, where efforts are made to ensure their health and well-being. Conservationists continue to work towards

preserving the genetic diversity of the Bengal tiger population while protecting these rare white tigers from extinction.

Q2. Read the following passage carefully:

(7)

1. Amul, a dairy cooperative based in Anand, Gujarat, is one of India's most successful and beloved brands. It was founded in 1946 and played a pivotal role in India's White Revolution, which transformed the country into one of the world's largest producers of milk and milk products.

2. The story of Amul began with the vision of Dr. Verghese Kurien, often called the "Father of the White Revolution" in India. At a time when dairy farmers were struggling due to exploitation by middlemen, Dr. Kurien and his team established a cooperative model that empowered farmers. This model made sure that farmers received fair prices for their milk, eliminating the middlemen and creating a direct link between producers and consumers.
3. Amul introduced innovative products and marketing strategies that captured the hearts of millions. Their famous slogan, "Utterly Butterly Delicious," and the iconic Amul girl mascot became household names. The cooperative's focus on quality and affordability helped it grow rapidly.
4. One of the major achievements of Amul was the establishment of a robust supply chain that included milk collection centres, chilling units, processing plants, and distribution networks. This efficient system ensured that fresh milk and dairy products reached consumers across India.
5. Amul's success had a far-reaching impact. It improved the livelihoods of millions of dairy farmers, especially in rural areas, and contributed significantly to India's economy. The cooperative model of Amul became an example for other industries, showcasing the power of collective effort and community-based business practices.
6. Despite facing challenges such as fluctuating milk prices and competition, Amul continues to thrive and innovate. It has expanded its product range to include ice creams, cheese, chocolates, and beverages, maintaining its commitment to quality and customer satisfaction.
